

Proven Performance Since 1932.

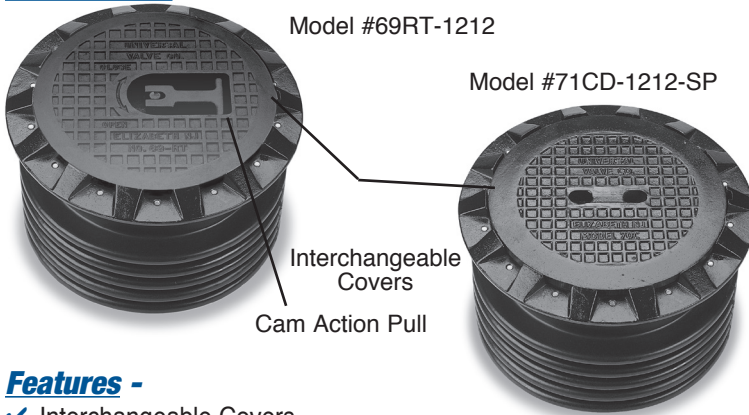

SPILL CONTAINMENT MANHOLES

SPILL CONTAINMENT MANHOLE RING WITH TWO INTERCHANGEABLE COVERS

Application -

Designed to contain spillage during underground tank filling.

Part Number - 69RT & 71CD-SP

UNIVERSAL Advantage

Only from Universal! - Change covers as your needs change. Both the #69RT and #71CD-SP covers have a water-resistant seal. The 69RT features a cam action cover that pulls down on the seal for added protection. Both units also feature a cast iron base, (not plastic), that eliminates cross threading. The flexible bellows are fastened to the base with 8 bolts to eliminate the possibility of separation during ground shifts, which is associated with other containment manholes.

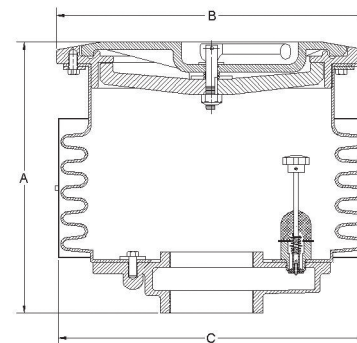

Features -

- ✓ Interchangeable Covers
- ✓ Gasketed all weather ring takes the abuse of snow plows
- ✓ 4" riser opening
- ✓ H-20 load rating
- ✓ Available with a flush mount ring
- ✓ V model without drain

Construction -

- 71CD cover: ductile iron, 69RT cover: cast aluminum
- Cast iron ring
- Cross-linked polyethylene bellows
- Plastic gravel shield
- Cast iron base

Model	Gallon Capacity	Weight (lbs.)	A	B	C
