Say Hello to Galvanneal Island Forms!

Galvanneal with a primer coating gives you far better protection from rust than standard sheet metal!

Now Universal offers two great options for superior element protection as a standard!

Galvanneal with black primer, so you can paint your islands to match the color of the store's decor!

Stainless Steel for that clean low maintenance option.

Bundle your order with the u-shape guards and save even more!

Universal Valve Island Forms Are Available with These Features:

- 6" Radius Corners
- Full Radius Ends
- Full Radius Ends w/Bumpers
- Bow Tie Islands
- Curbing
- Galvanneal w/ Black Primer
- Stainless Steel
- 12 gauge
- Endless widths and lengths
- Pre-assembled 1 Piece
- Standard breakdown Islands

Be Sure, Be Safe, Choose Universal!

MODEL 49 OVERFILL VALVE UST/AST

UL approved for both Pressure and Gravity fills!

Universal Valve: Model 49, protects against gravity filling into a typical "AST Tank". If you have installed an "AST Tank" in a basement or below the grade of the fill point and you gravity fill, you could be at risk of an overflow. Universal is UL approved for both Pressure Fill and gravity fill with no minimum flow rate!

- UL Approved for Pressure and Gravity Fills
- No minimum flow rate
- 1 part number for direct or remote fills
- Available in an E-85 and B-100 versions
- Built and tested in the U.S.A. !

Be Sure, Be Safe, Choose Universal!

VAPOR VENTS

UPFLOW VENT

Application -

Assures even pressure in the UST/AST during filling or dispensing

Part Number - 45

UNIVERSAL
Advantage

Only from Universal! – Designed with an upward flow to rapidly disperse vapors. A grooved drain lip in the cap allows for efficient water drain-off.

Features -

- ✓ All cast metal construction
- ✓ Easy installation with 2 set screws
- ✓ Flame retardant 40 mesh bronze screen
- ✓ Conforms with NFPA-30

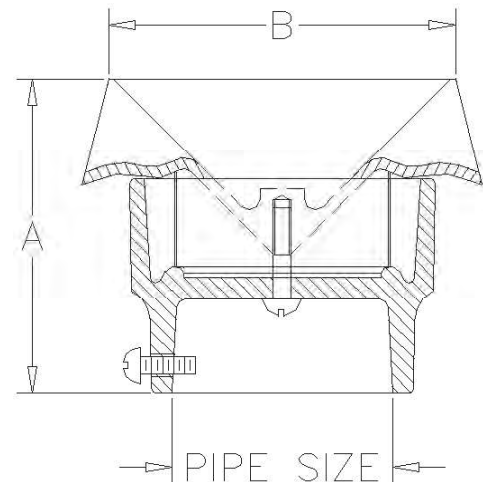

Construction -

- All metal body
- Bronze screen

Model	Pipe Size	Weight (lbs.)	A	B45-15
45-15	1-1/2"	1.2	4-3/8"	4"
45-20	2"	1.1	4-3/8"	4"
45-30	3"	2.6	5-3/8"	6"

Replacement Parts

Part Numbers	Description
45-1-A	2" x 1 1/2" Bushing (Model 45-15)
45-2-E	2" Body Screw
45-3-E	3" Body Screw (Model 45-30)

Notice: Universal Valve Co., products must be used in compliance with applicable federal, state, and local laws and regulations. Quality and Reliability, Since 1932!

VAPOR VENTS

PRESSURE VACUUM VENT

Application -

Vapor recovery applications to assure even pressure in the UST during filling or dispensing.

Part Number - 46

UNIVERSAL
Advantage

Only Universal provides rugged all cast metal construction...built to last. This eliminates any injuries due to sharp corners and edges, unlike competitive fabricated products.

Features -

- ✓ Restricts vapor escape during product drops
- ✓ Vent slips onto existing vent piping and is held in place by 3 set screws (Model 46-2080 has 2" NPT threads)
- ✓ CARB certified
- ✓ Conforms with NFPA-30
- ✓ Compatible with E-85

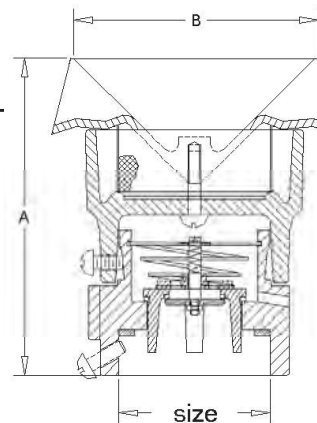

Construction -

- All cast aluminum body
- Flame retardant 40 mesh bronze screen

The Best For Over 85 Years!

OVERFILL PROTECTION

2" NPT OVERFILL VALVE

Application -

All new 2" overfill valve. The new 47-20 fits 2" tank openings. With no minimum flow rate this valve can be used for a wide variety of applications.

Part Number - 47-20

**UNIVERSAL
Advantage**

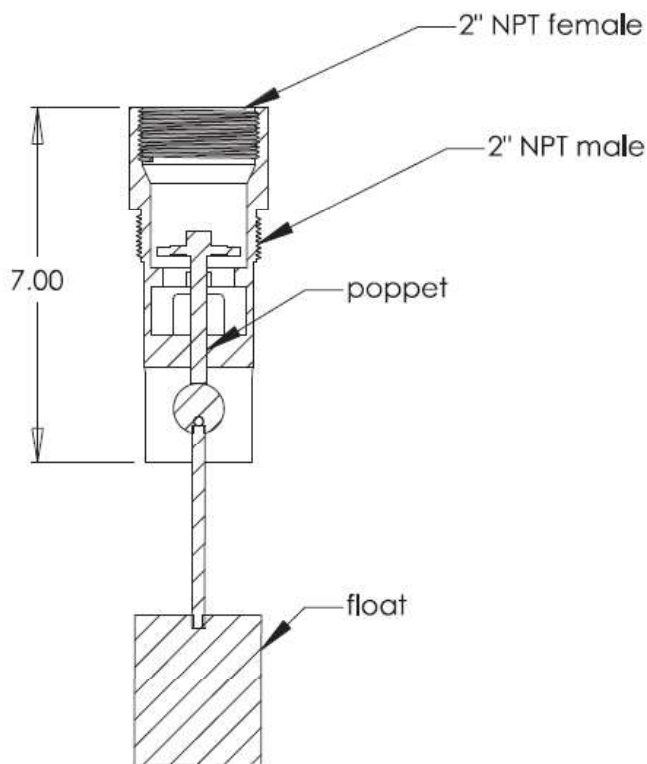

Only Universal Valve offers a 2" overfill valve designed to operate with no minimum flow rate. Making this valve the most versatile overfill on the market.

Features -

- ✓ No minimum flow rate to operate
- ✓ No line shock, gradual shut-off
- ✓ No float hang up
- ✓ Prevents overfills in tanks reducing contamination and costly clean-up
- ✓ Completely automatic operations
- ✓ Easily retrofitted to existing tanks
- ✓ 2" NPT tank opening
- ✓ 55gpm at 30PSI
- ✓ 10PSI = 100gpm
- ✓ Max 100PSI
- ✓ Max 150 Centistokes

Construction -

- Hard coated aluminum
- Reinforced closed cell float
- Buna gaskets

OVERFILL PROTECTION

UST WASTE OIL OVERFILL VALVE

Application -

The new 47-20-USTWO fits 4" tank openings.
With no minimum flow rate this valve can be used for a wide variety of applications.

Part Number - 47-20-USTWO

47-20-USTWO

Includes:
Fill Cap (not shown)
Fill Adapter
4" Adapter Coupling
47-20 Overfill Valve

Not included: Internal Riser Pipe-
contractor supplied length TBD by
installation instructions

Features -

- ✓ No minimum flow rate to operate
- ✓ No line shock, gradual shut-off
- ✓ No float hang up
- ✓ Prevents overfills in tanks reducing contamination and costly clean-up
- ✓ Completely automatic operations
- ✓ Easily retrofitted to existing tanks
- ✓ 4" NPT tank opening
- ✓ 55gpm at 3OPSI
- ✓ 1OPSI = 100gpm
- ✓ Max 10OPSI
- ✓ Max 150 Centistokes

Construction -

- Hard coated aluminum
- Reinforced closed cell float
- Buna gaskets

Optional funnel

Proven Performance Since 1932.

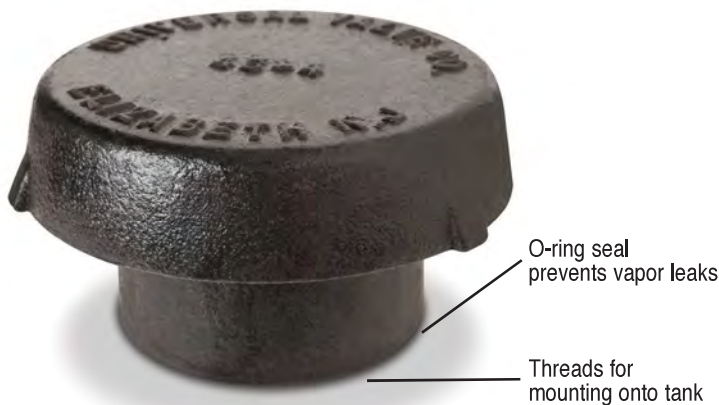

AST EMERGENCY VENTS

BLOW OFF VENTS

Application -

For all AST storage applications. Allows venting to relieve the excessive internal pressure build-up. The emergency vents will open at approximately 1 PSI.

Part Number - 48

**UNIVERSAL
Advantage**

Only from Universal! –The unique mushroom design specifically prevents water and contaminants from entering the AST.

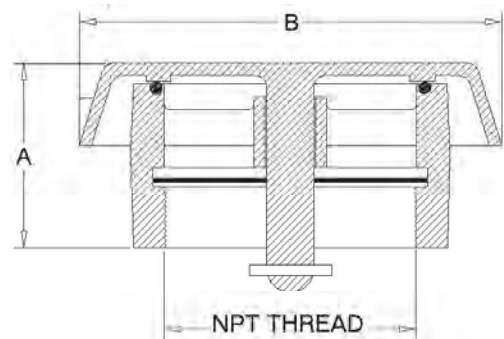

Features -

- ✓ O-ring seal prevents vapor leaks
- ✓ Mounts onto the tank
- ✓ Female threads
- ✓ Non-corrosive polymeric coating
- ✓ Meets state and federal regulations
- ✓ Compatible with E-85

Construction -

- Rugged epoxy coated cast iron body

Simply The Best!

OVERFILL PROTECTION VALVES

AST/UST VALVE

Application -

Prevent overfills in AST's and UST's.

Part Number - 49

Features -

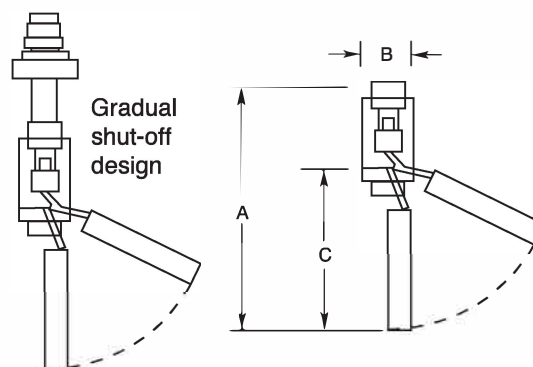

- ✓ No line shock, gradual shut-off design
- ✓ No stress on system
- ✓ No float hang-up
- ✓ Prevents overfills reducing contamination and costly clean-up
- ✓ Completely automatic operation
- ✓ Easily retro-fitted to existing tanks
- ✓ Shipped with fill adapter
- ✓ Adjustable collar provides simple installation
- ✓ Minimal pressure drop

Construction -

- Hard coated aluminum pipe adapter
- Zinc plated steel linkage
- Reinforced closed cell float

UNIVERSAL Advantage

The best overfill protection available today.
No line shock and gradual shut-off to eliminate any stress on the system.

U.L. Approved for both Pressure and Gravity Fill Applications. No Minimum Flow Rate Required.

ABOVE GROUND TANK VALVES

ANTI-SYPHON VALVE

Application -

Reducing fire hazards and preventing fuel spillage should a line rupture.
The flow would automatically stop the syphon effect.

*Also available with pressure relief for thermal expansion (403PR).

Part Number - 403

UNIVERSAL
Advantage

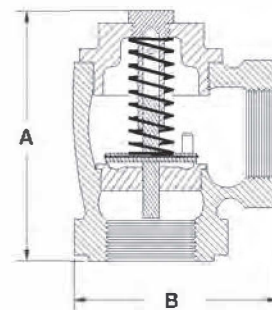

Only from Universal! – No need to specify head settings! Everything is included to cover an operating range of 0' to 20'.

Features -

- ✓ Precision machined valve seats
- ✓ Automatic shut off syphon effect
- ✓ Prevents fuel spillage
- ✓ No need to specify head settings when ordering
- ✓ PR opens 15-35PSI

Construction -

- Zinc plated cast iron body
- Buna-N seals
- Now Available in optional E-Coated Ductile Iron Casting (-D)

Unmatched Value!

ABOVE GROUND TANK VALVES

SOLENOID VALVES

Application:

Reducing Fire hazards and fuel spillage should a line rupture. The valve opens when energized from a dispenser or pump switch.

Part Number - 404V

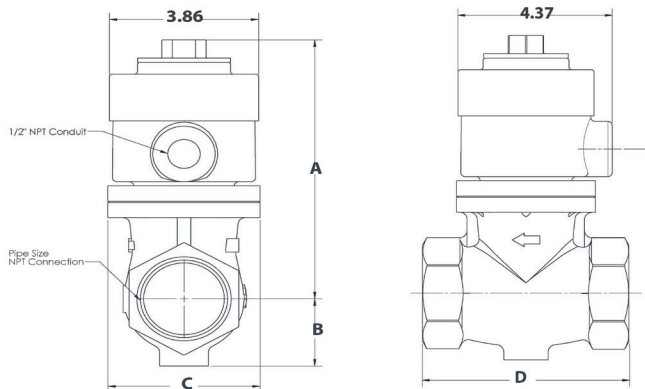

UNIVERSAL ADVANTAGE:

Heavy duty two way normally closed, one directional flow. Piston style design for high flow and zero differential. No need to specify 120V/60 or 24V/DC when ordering.

Features-

- Zero Differential - Direct Lift
- Higher Flow than Diaphragm Valves
- Internal Pressure Relief
- No Need to Specify 120V/60 or 24V/DC when ordering

Construction-

- Bronze Body & Piston

Unmatched Value!

ABOVE GROUND TANK VALVES

SOLENOID VALVES-FLANGED

Application:

Reducing Fire hazards and fuel spillage should a line rupture. The valve opens when energized from a dispenser or pump switch.

Part Number - 404T

Features-

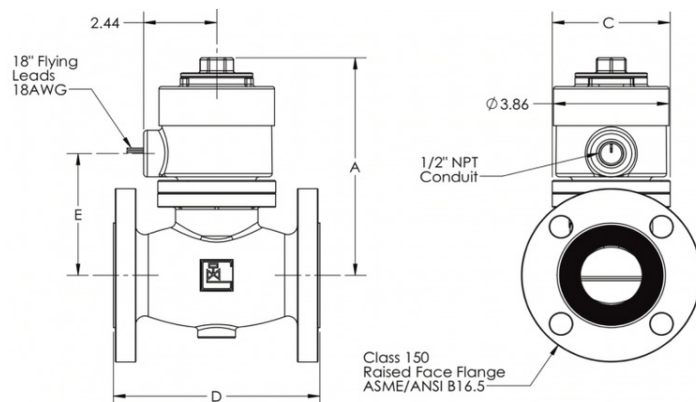

- Zero Differential - Direct Lift
- Higher Flow than Diaphragm Valves
- Internal Pressure Relief
- No Need to Specify 120V/60 or 24V/DC when ordering

Construction-

- Stainless Steel Body & Piston
- Teflon Seals

UNIVERSAL ADVANTAGE:

Heavy duty two way normally closed, one directional flow. Piston style design for high flow and zero differential. No need to specify 120V/60 or 24V/DC when ordering.

CAPS

DUST CAP FOR 4" PIPE

Application -

Capping pipes in extractor valve assemblies, storage tanks, and monitoring wells.

Part Number - 418

Model 418

Model 418TM

UNIVERSAL Advantage

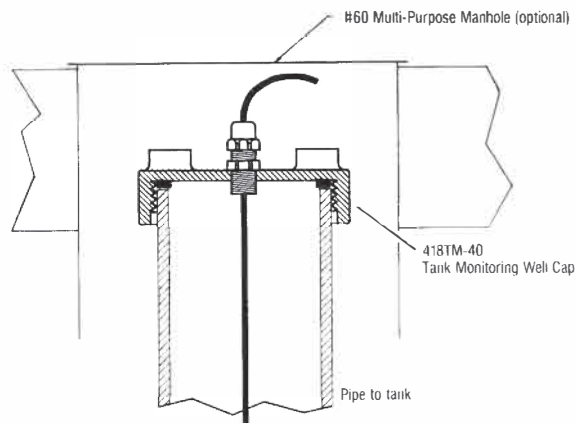

Only from Universal! – The 418TM-40 is easy to install and remove, because of the top ears configuration. Ribbing on the side allows easy hand tightening.

Features -

- ✓ Top mounted ears allow easy removal and installation
- ✓ Rugged construction for long life
- ✓ Durable and non-corrosive
- ✓ Liquid tight seal
- ✓ UL#E79903
- ✓ CSA#LR50370-10 approved

Construction -

- Reinforced composite plastic construction
- Buna-N seal

EXTRACTOR FITTINGS

EXTRACTABLE CHECK VALVES

Application -

Holds prime in suction system applications.

Part Number - 515

Removable front plate

UNIVERSAL
Advantage

Strategically used in place of foot valves.

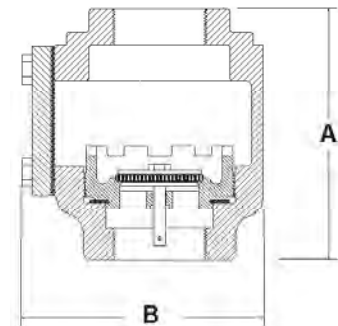

**ONLY UNIVERSAL HAS A
METAL-TO-METAL BRASS SEAL.**

Features -

- ✓ Holds the prime
- ✓ Easily serviced without disturbing existing pipes in suction systems
- ✓ No need to remove valve to clean because it has a removable front plate for easy maintenance
- ✓ Rugged cast iron body eliminates distortion of valve seat when tightened

Construction -

- Zinc plated cast iron body

TIGHT FILL ACCESSORIES

VAPOR RECOVERY FLAT TOP CAP

Application -

Low profile which extends only 5/8" above the adapter, allows maximum clearance in manhole, and has a total water and vapor seal solution.

Part Number - 0613VC

UNIVERSAL
Advantage

Only from Universal! - A low profile design which allows for maximum clearance. This compensates for ground heaving and settling. Our cam-action cap produces a water and vapor tight total seal solution. Truly the best in the industry.

Features -

- ✓ Cam-action handle provides a total water and vapor seal solution
- ✓ Non-corrosive polymeric coating
- ✓ Color-coded in "orange" for easy recognition and maintenance
- ✓ Compatible with 0611V Vapor Check Valve Adapter
- ✓ Compatible with E-85

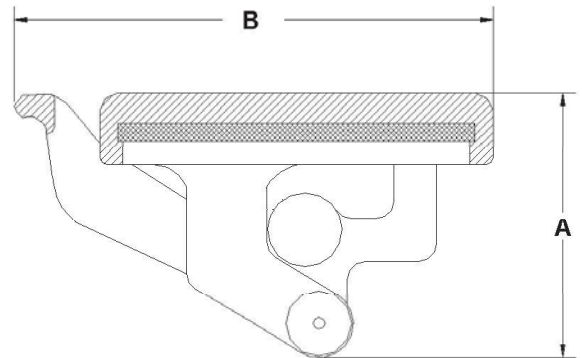

Construction -

- Cast aluminum body
- Ductile iron cam-action handle
- Buna-N seal

Simply The Best!

LIQUID TIGHT FUEL BOXES

FLUSH MOUNT FILL BOX

Application -

Mounts flush to connect the underground tank fill line to the surface, without a manhole enclosure.

Part Number - 701, 756

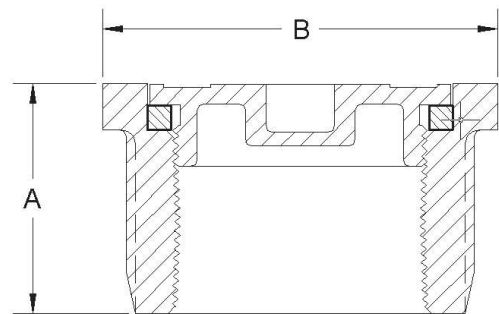

Features -

- ✓ Ideal for fuel, oil, waste oil, and diesel fuel applications
- ✓ Designed to withstand heavy driveway traffic
- ✓ Recommended for applications not requiring security or containment

Construction -

- A threaded bronze cover
- Heavy duty cast iron body
- Buna-N gasket

Model	Thread Size	Weight (lbs.)	A	B
701-20	2"	2.3	2-1/8"	3-5/8"
756	Multi-purpose fill box wrench	2.4		

Replacement Parts

PIPE LINE ACCESSORIES

PIPE EXTENSIONS

Application -

Compensates for ground heaving and settling in existing installations.
It is recommended for all new installations, to add height to the riser pipe.

Part Number - 1002

UNIVERSAL
Advantage

A Universal first for over 25 years!
Used to compensate for ground heave, eliminating the need to field cut pipe as tank rises.

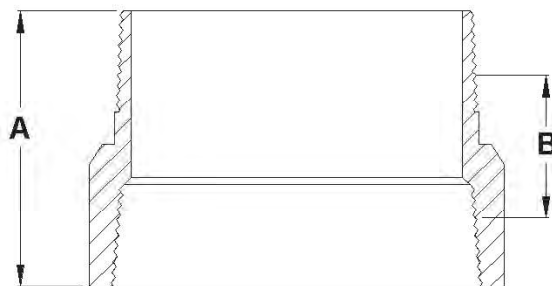

Features -

- ✓ May be used for all adapters
- ✓ Easily retro-fits after installation
- ✓ Eliminates field cut pipe

Construction -

- Cast iron body

Model	Size	Weight (lbs.)	A	B
1002S-40	4" x 4"	2.5	2-1/2"	1-3/4"
1002L-40	4" x 4"	3.6	3-1/2"	2-1/2"

The Best For Over 85 Years!

VALVE FITTINGS & ACCESSORIES

DOUBLE POPPET SAFETY VALVES

Application -

Maximum safety in a double-poppet safety valve with two independent seals.

Part Number - 521DP, 522DP

UNIVERSAL
Advantage

The Safest Safety Valve! Only Universal uses an independent shear section for easy replacement. No need to remove the top poppet as with competitive products. Also, no need to buy an expensive replacement poppet top. This reduces the chance of fire and contamination. This unique three piece design allows for two independent seals which increases safety and reduces future labor and replacement costs.

Features -

- ✓ Pressure relief (upper poppet) to prevent pressure build-up
- ✓ Both poppet and seats are completely independent of the shear section, so when sheared the valve assures a 100% liquid tight seal
- ✓ The single link design provides ease of operation and reduced maintenance
- ✓ An air test port allows line testing without breaking the integrity of the line
- ✓ Raised bosses provide secure anchoring
- ✓ Optional model 522DP with 2" external male threads for easy connection to secondary containment piping

Construction -

- Zinc-plated/ E-Coated cast iron body and top
- Stainless steel spring, shaft, and reset nut
- Buna-N seal

Notice: Universal Valve Co., products must be used in compliance with applicable federal, state, and local laws and regulations. Product selection should be based on physical specifications and limitations and compatibility with the environment and material to be handled. Universal Valve Co., makes no warranty of fitness for a particular use. Quality and Reliability, Since 1932!

VALVE FITTINGS & ACCESSORIES

SINGLE POPPET SAFETY VALVES

Application -

Maximizes safety, and prevents fuel spillage and fire hazard.

Part Number - 521, 522

**UNIVERSAL
Advantage**

Only from Universal! The safest safety valve!
The poppet and seat are completely independent of the top shear section, so even with the top off, the valve assures a 100% liquid tight seal.

Features -

- ✓ A 100% seal
- ✓ Unobstructed flow
- ✓ The poppet and seat are completely independent of the top shear section, so even with the top off, the valve assures a 100% liquid tight seal
- ✓ The single-link design provides ease of operation and reduced maintenance
- ✓ A stainless steel reset nut eliminates stripping the fusible link during valve reset, reducing downtime by allowing manual reset even under pressure
- ✓ All Universal Safety Valves are protected by zinc plating, assuring maximum corrosion resistance, unlike competitive products that are only painted
- ✓ An air test port allows line testing without breaking the integrity of the line
- ✓ Raised bosses provide secure anchoring

Construction -

- Zinc-plated/ E-Coated cast iron body and top
- Stainless steel spring and shaft
- Bun-N seal

Notice: Universal Valve Co., products must be used in compliance with applicable federal, state, and local laws and regulations. SAFETY VALVES

“SURE-SHEAR” U-CLAMP ANCHOR

Application -

Secures any remote pump safety valve, conforming with NPFA Code 30.

Part Number - 521KR

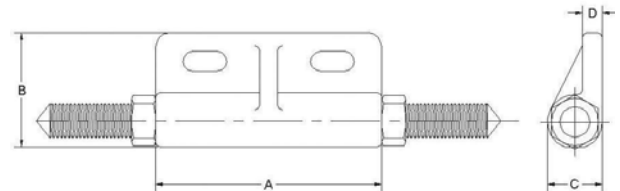

UNIVERSAL
Advantage

Only From Universal! A quick, easy and permanent way of mounting a safety valve. Saves time and money in anchoring.

Features -

- ✓ For retro-fit and new installations
- ✓ Eliminates need for expensive pump boxes or stabilizer kits
- ✓ Quick, easy and permanent
- ✓ Fits any major safety valve
- ✓ Saves time and money in anchoring
- ✓ Assures positive shearing action during accidental impact
- ✓ A securely anchored valve conforms with NPFA Code-30
- ✓ Compatible with E-85

Construction -

- Rugged plated cast iron body.
- Plated steel bolts, U-Clamp and hardware

SPILL CONTAINMENT MANHOLES

AST INTERNAL DRAIN

Application -

Above ground applications designed to contain fuel spillage during tank filling.

Part Number - 76CD

Features -

- ✓ An internal drain design, no external connections
- ✓ All steel construction and polymeric coating provide added protection
- ✓ A lightweight watershed cover is lockable for added security
- ✓ 7 gallon capacity
- ✓ Low profile design
- ✓ Threads onto a 4" riser
- ✓ V model without drain

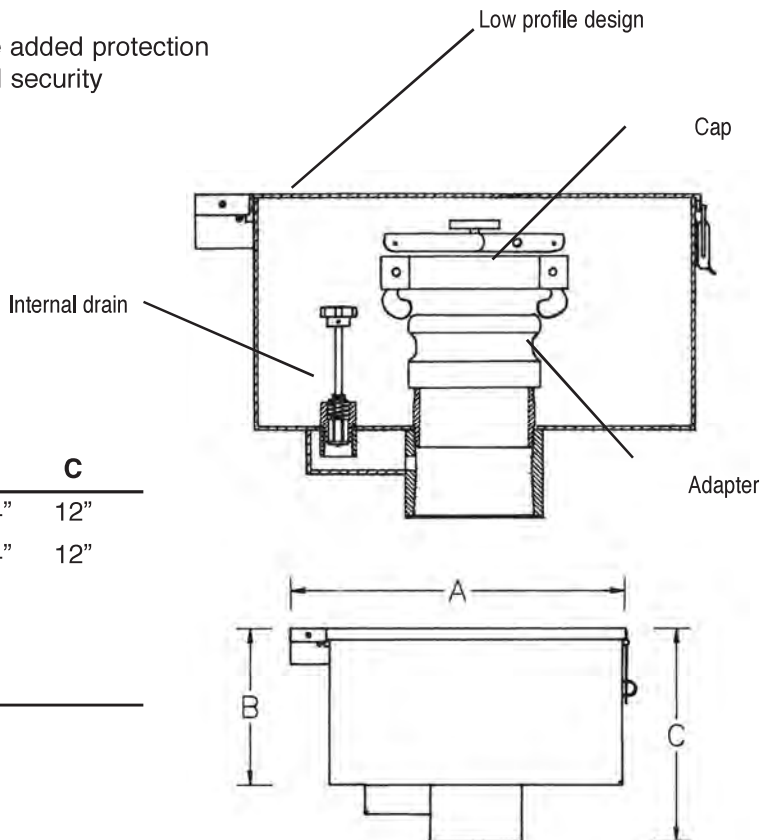

Construction -

- All steel construction with epoxy coating
- Non-corrosive polymeric coating
- Brass drain valve

Model	Gallon Capacity	Weight (lbs.)	A	B	C

ABOVE GROUND MANHOLES

REMOTE FILL/LOCKING FILL BOX

Application -

AST remote fill requirements.

Part Number - 76RF

UNIVERSAL
Advantage

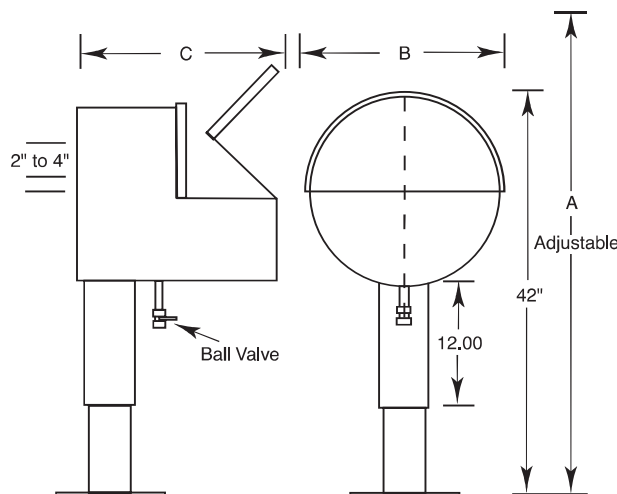

Only from Universal! - A superior single post design allows for easy adjustment during installation. A round top structure eliminates snow and rain build-up.

Features -

- ✓ Single pedestal design with one telescoping pipe allows for proper height adjustment
- ✓ Fast installation
- ✓ Round top structure, eliminates all snow and rain build-up
- ✓ Easy draining, with the round contour bottom to eliminate any liquid build-up
- ✓ All steel construction, for rugged strength and security
- ✓ Locking cover, provides security at tank to assure no unauthorized entry
- ✓ Epoxy coating resists hydrocarbons for long life
- ✓ Compatible with E-85

Construction -

- Epoxy coated 12 gauge steel container
- Buna-N seal

ACCESSORIES - TRUCK STOPS

HOSECRADLE

Application -

Holds fueling hose at commercial truck stops in a pre-formed protective cradle to prevent hose collapse and kinking. Along with our 870 & 871 Hose Retriever, the HoseCradle creates a total system. Red with yellow safety harness provides for additional protection.

Part Number - 100HC

**UNIVERSAL
Advantage**

A Universal First – popular at all truck stops. It's curvature design prevents hose collapse by controlling how much the hose will bend during use.

Features -

- ✓ Extends life of fuel hoses
- ✓ Prevents hose damage
- ✓ Compatible with our #870& #871 hose retriever

Construction -

- Durable polyurethane construction
- Metal clamps included

Model	Size (Size determined by hose I.D.)	Weight (lbs.)
100HC-100	1" (also fits 3/4" hose)	2.8

HOSE RETRIEVER

HOSE RETRIEVER

Application -

Protects hoses from excessive wear and damage. Prevents tangles and kinking. Reduces injury to customers from tripping accidents. Equipped with a heavy-duty base eliminating the need to bury a 2" pipe.

Part Number - 871

$$871\text{-Base} + 870 = 871$$

Features -

- ✓ Eliminates the need to break concrete
- ✓ Head permits 360-degree rotation for total service in any direction
- ✓ Installs on a 2" Pipe up to 10'-6" tall
- ✓ Rugged cast iron body and weights
- ✓ Equipped with heavy-duty base and side bracket
- ✓ 20 lb. Counterweight
- ✓ Compatible with E-85

Construction -

- Cast iron head and body
- Stainless steel cable
- Steel base

Model Weight (lbs.)

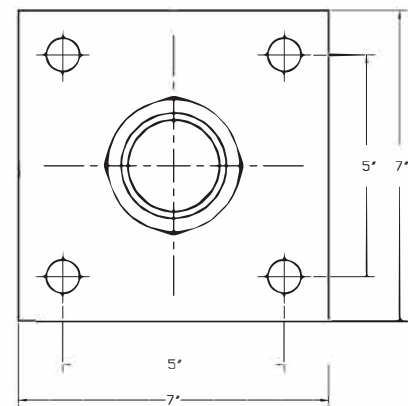

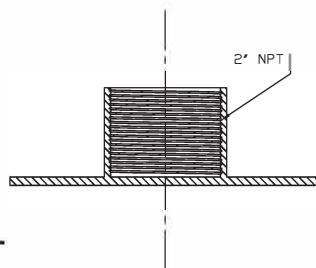

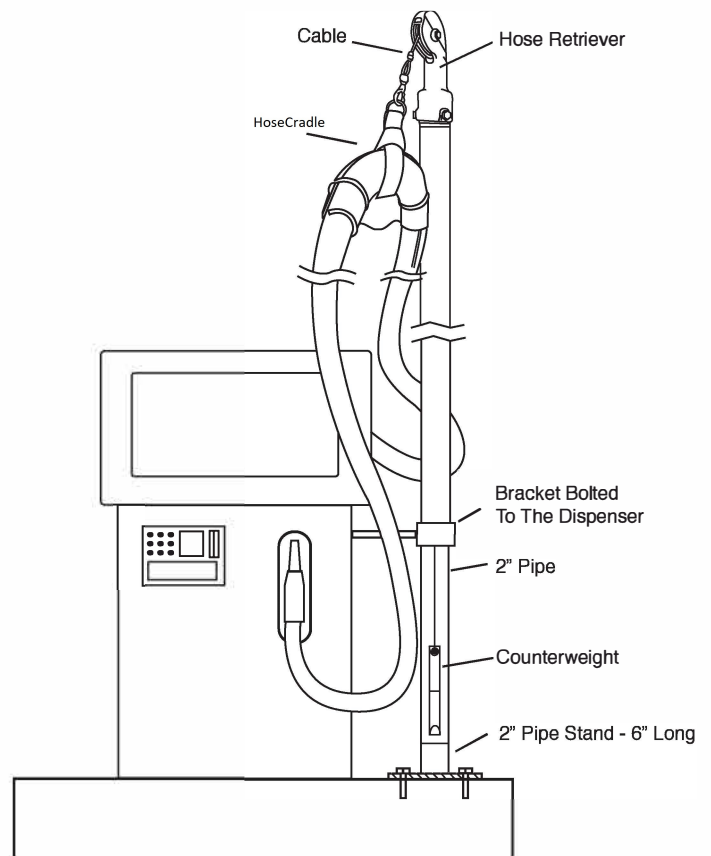

871 30

Replacement Parts

Part Numbers Description

871-BASE	Foot Base
871-BRACKET	Dispenser Bracket

*Also Available with HoseCradle. See price sheet for model numbers.

Proven Performance Since 1932.

HOSE RETRIEVER

HOSE RETRACTOR - COUNTERWEIGHT

Application -

Keeping conventional and Stage II vapor recovery coaxial hoses raised to prevent traps in the vapor line. Potential accidents are reduced. Hose life is greatly extended.

Part Number - 880/882

Optional Hose Clamp

UNIVERSAL
Advantage

Only from Universal! - Our better looking profile blends in with today's modern dispensers.

Features -

- ✓ Easy to install and maintain
- ✓ Adaptable to most dispensers
- ✓ Corrosion resistant construction
- ✓ Long life with minimum service
- ✓ Plastic bushing minimizes cable wear
- ✓ CARB certified
- ✓ Compatible with E-85

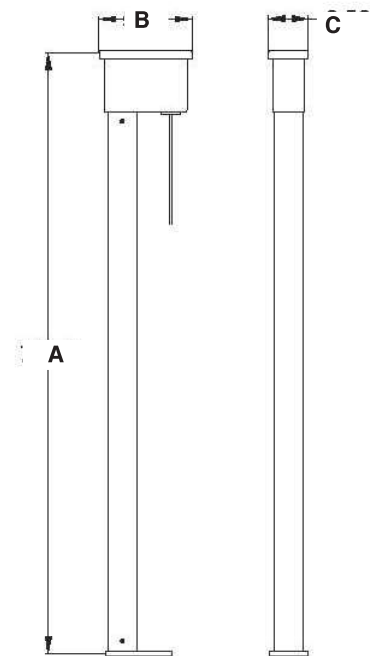

Construction -

- Aluminum Post (2"x2")
- Cast iron counterweight
- Plastic bushings
- Nylon Rope
- Includes both side and bottom mounting brackets

Now Available with Hose Clamps

880-CS10	880 + 1" Clamp
880-CS34	880 + 3/4" Clamp

WARRANTY

Universal's iron clad warranty is straight forward and fair. All of our products are guaranteed to be free from defects in materials. Our workmanship is second to none in the Petroleum Equipment Industry. This will continue to be one of the corner stones of Universal Valve Company, Inc.

LIMITED WARRANTY: All Universal products are thoroughly tested before shipment and guaranteed to the extent of replacing only products found to be defective in manufacture. Claims must be made within one year from date of invoice. We cannot, however, allow claims for labor or consequential damage resulting from purchase, installation or misapplication of our products.

CLAIMS: Our responsibility ceases when products are accepted by transportation carriers. All goods are at the risk of the purchaser after they have been delivered by us to the carrier and receipt obtained for same (in good order).

PRODUCT CHANGES: The right is reserved to make changes in pattern, design, or materials when deemed necessary, without prior notice. Products which have become obsolete by reason of design change, or discontinued as a manufactured item, may not be returned for credit.

PRICE CHANGES: Due to changes in design and manufacture, all prices listed herein are subject to change without notice.

Notice: Universal Valve Co., products must be used in compliance with applicable federal, state, and local laws and regulations. Product selection should be based on physical specifications and limitations and compatibility with the environment and material to be handled. Universal Valve Co., makes no warranty of fitness for a particular use. All illustrations and specifications in this literature are based on the latest production information available at the time of publication. Prices, materials, and specification are subject to change at any time, and models may be discontinued at any time, in either case, without notice or obligation.
